Even before the American Revolution, “America” represented an entirely new vista of possibilities to Europeans, from conquest and profit to rebirth and independence. On the other hand, “America” held many different meanings for Indians, free and enslaved Africans, lower-class white Europeans, and successive waves of immigrants from all over the world. The United States has grown out of these struggles for meaning among social groups, cultural and intellectual traditions, and political movements. In this class, we will explore how the idea of America evolved from Reconstruction to the present. What did it mean to be an American? Who was included or excluded, and on what terms? What did “America” symbolize on the world stage? Along the way we will examine a host of themes that continue to resonate today: racial and ethnic conflict, the role of women, family and childrearing, civil rights and liberties, the development of industrial and international capital, the “American century” of global influence, urbanization, modernization and modernity, and national identity. Because this is a college course, it requires students to sharpen their ability to think about facts and not just memorize them. Students will discuss, interpret, analyze, and write – activities that represent core academic skills needed to succeed in college and the wider professional world.

We will develop these skills in a series of History group activities, during class time and sometimes outside of class. In these activities, students will get the opportunity to do the work that historians do, exploring artifacts, images, film clips, advertisements, and other primary documents to draw some conclusions about not only the ‘what’ but also the ‘how,’ ‘why,’ and the ‘so what’ of history. Your ability to read, communicate, and participate thoughtfully will significantly determine your final grade. Keeping up with the reading schedule, completing assignments on time, taking good class notes, and attending class meetings prepared to discuss assigned topics are each CRUCIAL!!!! This course meets the standards for the American History category of courses under the core curriculum.

**Learning Outcomes:** At the end of this course, the student will be able to:

1. Create an argument through the use of historical evidence.
2. Analyze and interpret primary and secondary sources.
3. Analyze the effects of historical, social, political, economic, cultural, and global forces on United States history prior to 1865.

A non-punitive drop does not affect the student's GPA. However, course drops that exceed the maximum allowed by SB 1231 will be treated as "F" grades and will impact the student's GPA.
