Final Examination

The final examination is comprehensive of the entire course. The final examination accounts for **40%** of the overall grade. The final examination will be administered online through Cengage. You will receive notice of the availability of the final exam by Blackboard Announcement and email. Each question will allow for 6 minutes to answer. Extensions will **not** be granted for lack of availability of internet connections. You are strongly discouraged from using any wireless connection for completion of any homework, quiz, examination, or final examination. It is the student's responsibility to have an adequate connection to complete these.

Examinations

There will be three examinations administered online through Cengage. Together, these three tests account for **35%** of your grade. Each examination is limited in time, and you will have only one opportunity to obtain the highest grade you can. You will receive notice of the availability of the examinations by Blackboard Announcement and email. Each question will allow for 6 minutes to answer. Extensions will **not** be granted for lack of availability of internet connections. You are strongly discouraged from using any wireless connection for completion of any homework, quiz, examination, or final examination. It is the student's responsibility to have an adequate connection to complete these.

Chapter Quizzes

Chapter quizzes will be administered online through Cengage. You will receive notice of the availability of the chapter quizzes by Blackboard Announcement and email. Each quiz will consist of ten multiple choice questions. Each question will allow for 6 minutes to answer. Extensions will **not** be granted for lack of availability of internet connections. Together, chapter quizzes account for **20%** of your grade. Each chapter quiz will be limited in time, and you will have two quizzes per chapter. You will have one opportunity to complete each quiz. You are strongly discouraged from using any wireless connection for completion of any homework or quiz assignment. It is the student's responsibility to have an adequate connection to complete these.

Homework Assignments

Homework problems will be administered online through Cengage. Notice of Homework assignments will be given online by Blackboard Announcement and email. Each assignment will consist of ten to fifteen multiple choice questions. You have as many as twenty attempts on each homework assignment to earn the highest grade you can. The grade for the homework assignments is based on completion and accuracy. A total of **5%** of your grade is based on your homework assignments. Extensions will **not** be granted for lack of availability of internet connections. You are strongly discouraged from using any wireless connection for completion of any homework or quiz, assignment. It is the student's responsibility to have an adequate connection to complete these.

COMPLETION OF HOMEWORK, QUIZZES, EXAMINATIONS, AND FINAL EXAMINATION:

Students will be sent notice by Blackboard Announcement (which sends simultaneous notice to the Blackboard Announcements section in Blackboard, and to webmail) that a homework or quiz assignment is available for completion. Upon receiving such notice, it is the student's responsibility to check Cengage for the due date/time. You are strongly discouraged from using any wireless connection for completion of any homework or quiz assignment. It is the student's responsibility to have an adequate connection to complete these.

In general, the homework and quiz assignments will allow for 72 hours, from date/time of assignment, to complete the homework or quiz. It is the student's responsibility to check Cengage for when the assignment is due. The time

allowed for completion of the assignment will vary because students must be allowed time to review these assignments in preparation for Examinations.

MAKE UP AND LATE ASSIGNMENT/EXAM/QUIZ/FINAL EXAM POLICY:

As a general rule, make-ups or late submissions will NOT be offered or accepted for any missed homework/exams/quizzes/final exam. Late submissions or make-ups may be accepted/administered only in extraordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed homework/exams/quizzes. For homework/exams/quizzes, if you submit a medical excuse, you must notify me before the deadline for completion of the assignment of your medical excuse if the circumstances permit it. For example, if your medical documentation shows that you were diagnosed with a non-emergency condition such as covid, then you need to notify me before the assignment deadline. However, if you were in a major car accident and you were hospitalized, then clearly you are not expected to notify me before the assignment deadline. Also, your medical documentation must include names, addresses, and phone numbers of the medical personnel who addressed your medical emergency, along with your waiver of your physician-patient privilege. Although I do not have an interest in what your medical condition was, I do have a need to verify when the emergency occurred, how long it lasted, and whether it prevented you from completing the exam, quiz, or homework assignment. Extensions will **not** be granted for lack of availability of internet connections.

Course Drop Policy:

You may drop the course on or before November 14, 2025 with an automatic grade of W. If you wish to drop the class after that date, you will receive either W (if you have satisfactory record so far) or F. The last date to drop a course or withdraw from the University is November 25, 2025. If you wish to drop the class, you must submit the necessary paperwork to the proper authority.

Class conduct and civility code:

Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:

1. Attendance may be taken by an appropriate method by the instructor.
2. It is the students' responsibility to obtain and be able to use the required materials and software for this class.
3. Student must retain copies of all assignments and graded work for verification purposes and provide it to the instructor, if necessary. Keep own copies of all computer files and e-mails until final grade is received.
4. Talking while the instructor is lecturing is extremely disruptive and discourteous to the instructor and other students.
5. Using computers or phones (except for a valid urgent need) during class for a purpose not related to class is disruptive. All cell phones and gadgets should be turned OFF.
6. For any questions about the exams and assignments, a student should contact the instructor, well in advance of the day they are due, so the instructor may have enough time to provide feedback.
7. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. The instructor will reply to a student e-mail messages and voice messages within 2 business days (Monday-Friday).
8. All assignment submissions must be uploaded as instructed by the due date and time. Submission window may close or marked late, if not uploaded on time and be penalized for it. Anyone violating these policies may be subject to disciplinary actions.

Class attendance and Participation:

Attendance is expected since this class is a hybrid class. A hybrid class requires attendance once per week as stated in the class schedule. I record this class live on Webex and make it available for students to review throughout the semester. I do this for two reasons: 1) students find this recording useful since it provides class notes that a student would have to take during class, and 2) students will inevitably be

absent from some classes and the Webex recorded class delivers the course content covered in class. Although I do not penalize a student for absenteeism, this does not forgive the requirement of attendance once per week.

Additionally, each week I will make a Webex recording of a class that does not require in person attendance on campus. I record this class and make it available for students to review throughout the semester. Each class will be recorded live on Webex and available for your review. All such class recordings will be available for your review throughout the semester. These Webex recordings are important for you to review and study. A vital part of every student's education is regular attendance of class meetings (for face-to-face/hybrid/online synchronous classes) or regular review of class materials posted by the instructor for asynchronous classes. Any absences tend to lower the quality of a student's work, and frequent or persistent absences may result in a failing grade. Students are responsible for the materials covered in class. The course covers a lot of material and most students find at least some parts of it difficult. Class participation is highly encouraged as it makes the class more interesting and enhances the learning experience. Students are strongly encouraged to ask questions, participate in class discussions and problem solving, and visit/contact the instructor during office hours in case of questions or concerns. Good attendance and participation may be rewarded when final grades are assigned.

The course is intensive and challenging and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important, and may vary considerably based on student background. However, a **minimum** of two hours of work outside the class is expected for every one hour of class period per week. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures.

For all classes, whether they meet in person on campus, are hybrid, or are all asynchronous online, I will record on Webex and you will be notified by email and Blackboard Announcement of the availability of the recorded class. For classes that meet in person, you are expected to attend in person. However, if you have concerns about having symptoms of COVID-19, then you are urged to attend class online or view the Webex recording of the class. This will suffice for attendance.

University Email Policy and Course Communications: All correspondence between professors and students must occur via tamusa email accounts or Blackboard messages. You must have your Jaguar email account ready and working. If it is not working, contact the help desk at 210-784-4357.

Academic Misconduct Policy: Texas A&M University-San Antonio students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education, and follow the Texas A&M University-San Antonio Code of Conduct. For more information please visit the Office of Student Rights & Responsibilities website <http://bit.ly/TAMUSASStudentRR>.

Academic misconduct includes, but is not limited to, cheating, plagiarism, multiple submissions, collusion, lying and bribery. In cases of academic misconduct, students may be subject not only to grade sanctions in courses but to disciplinary action. If a student wishes to appeal the decision of suspension or expulsion due to violations of academic misconduct, they must initiate their appeal as outlined within the Student Code of Conduct.

All student term papers and other written assignments are subject to analysis by anti-plagiarism software. Posting of any class work given to student, or solutions, or discussion, on publicly accessible forums or on social media is not permissible unless explicit written permission have been granted by the instructor.

COVID-19 RECOMMENDATIONS

Everyone is strongly encouraged to get vaccinated and get vaccine boosters! It is the best way to prevent serious illness or death. While in the classroom everyone is strongly encouraged to wear a wellfitting

mask! N95 and KN95 (NIOSH approved) masks offer the best protection from COVID-19 but even a surgical or cloth mask of at least three layers offer some protection. Wash and sanitize your hands regularly and always before attending class. Students should use the Jaguar App Self Wellness Screen to conduct a self assessment each day before coming to campus to determine if they are exhibiting any signs or symptoms of COVID-19 or have been exposed to COVID-19. Information on times and location of testing can be found here: <https://www.tamusa.edu/community-safety-together/testing-contacttracing.html> Do not come to class if you are having symptoms of COVID-19! Go get tested! Students should visit the on-campus testing facility to receive a COVID-19 test if they are exhibiting symptoms or have been exposed. If you have a positive COVID-19 test, symptoms, or a known exposure report it through the COVID-19 reporting portal (<https://www.tamusa.edu/community-safety-together/>). After reporting through the portal the Dean of Students will contact your instructor and inform them that you will not be attending class. Your instructor may provide you with an accommodation (For example: prerecorded lecture, synchronous online link, extension of deadlines, or make up exams). Accommodations are available for students with a documented illness or those with symptoms awaiting test results. Do not return to class until cleared by the Dean of Students.

Broader Use of Generative AI Permitted Within Guidelines

Use of artificial intelligence (AI) tools, including ChatGPT, is permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (this includes in-text citations and/or use of quotations, and in your reference list). Using an AI tool to generate content without proper attribution qualifies as academic dishonesty and violates Texas A&M-San Antonio's standards of academic integrity.
