Catalog Course Description: The course provides students the opportunity to gain an off campus learning experience allowing the acquisition and application of computer science skills in a professional work environment.

Prerequisite(s): Grade of 'C' or higher in CSCI 2436, minimum junior standing, and department chair permission.

Students serve an internship to perform agreed upon tasks for an employer. The employer acts as a mentor. The student performs a specific function. These experiences are recounted in regular reports to the Professor assigned to the class. These reports become the basis for a semester end report by the student. In addition, the employer files an end of semester report on the student.
