Course Description (from the A&M-SA Course Catalog)

This course is designed to assist first-year students in adjusting to university expectations through enhancing quantitative reasoning skills and acquiring essential skills for academic success.

Course Overview

This course is designed to assist first-year students in adjusting to university expectations, acquiring essential academic success skills, and exploring different career paths. The course focuses on accessing university resources, and developing self-awareness, agency, and personal responsibility. Students will also become active members of the campus community.

Course Promises

This course makes a set of promises to you (assuming you fulfill the expectations below). By the end of the semester, you should be able to:

1. Exhibit growth in self-awareness, agency, and personal responsibility
2. Adapt and apply appropriate academic strategies to courses and learning experiences
3. Identify and apply strategies to effectively manage time and priorities
4. Identify relevant academic policies, processes, and resources relevant to your academic success
5. Develop goal-setting strategies to enhance academic and career readiness.

Course Expectations

This course will only fulfill these promises if you promise the following in return:

Attend classes. This course will rely largely on class content and discussion. For this format to succeed, you must be present and on time. You will earn an absence if you arrive 15 or more minutes after class has started. Excessive tardiness will also be penalized. You will receive points for attendance and many in and out of class

assignments will be contingent on information from class. To earn full participation points, you must attend class and actively participate. ***You may miss up to four classes. Five absences may result in you being dropped from the course.***

Be attentive and participate in class. I expect all students to actively participate during class both verbally and nonverbally. Participation does not simply mean speaking, although that is essential. I realize there are a variety of ways students can participate (e.g., following discussions with your eyes and ears, asking questions, sharing, reading, writing, individual reflection, presenting, collaboration). I hope that you will strive to stretch yourselves beyond your preferred ways of learning and your comfort zone. I encourage you to contribute thoughtful comments and questions, as well as to listen carefully to your peers' contributions and respectfully respond to others' comments. The success of our mutual learning from each other depends upon preparation and active participation in all aspects of the course.

Complete required assignments in a timely manner. Assignments provide you with both informal and formal opportunities to articulate your responses to the issues and topics we will discuss. You will get the most out of the course if you turn in your work on time. Extensions require at least a full day's advance notice prior to due dates and approval from me. It is vital that you follow basic grammar rules in order to get full credit for assignments. No matter how short or long the response, make sure you check for grammar and standards of academic writing. All responses are a reflection of you and are intended to prepare you for academic and professional writing.

Late Work Policy: With the exception of the final project, you can request an extension on all assignments. I will give you 3 extra days to complete assignments that you request an extension. Assignments are closed on Blackboard after the extension deadline and will no longer be accepted at that point in time.

Assignments and Evaluations

To be successful in this course you are expected to complete all assignments on time. Assignments must be submitted to the correct location to be considered on time. Assignments will be graded based on quantity and quality with rubrics for each assignment provided in Blackboard.

The majority of assignments will be completed during class. If you miss an in-class assignment, meet with your Instructor, Peer Leader, or a classmate to catch up on any work you may have missed.

The university will provide such reasonable modifications to pregnant students as would be provided to a student with temporary medical condition that are related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused

absence. Pregnant/parenting students are encouraged to contact the Title IX Coordinator with any questions or concerns related to their status (titleix@tamusa.edu; 210-784-2061; CAB 439K). This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges

the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.

2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or

ethnic origin, religion, sex, disability, age, sexual orientation, gender identity, gender expression, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.

3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university students' rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, Student Code of Conduct, on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.

4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
5. A student has the responsibility to check their university email for any updates or official university notifications.
