Written Assignments/ Research/ Case Study Papers:

PLEASE NOTE:

BUAD 4301 assumes that all work submitted by students will be generated by the students themselves, working individually or in groups. Students should not have another person/entity do the writing of any portion of an assignment for them, which includes hiring a person or a company to write assignments and/or using artificial intelligence (AI) tools like ChatGPT. Use of any AI-generated content in this course qualifies as academic dishonesty and violates Texas A&M-San Antonio's standards of academic integrity.

AACSB Assessment:

The College of Business received AACSB accreditation in Spring 2023. As part of that ongoing process, students will be assessed on program level outcomes based on course outcomes from various courses. The materials from this course may be used for assessing such program level outcomes, and hence students must follow the necessary rigor to ensure mastery and retention of the above course outcomes.

NOTE: *Written communication skills will be assessed and graded as part of this assignment through three (3) formal papers.*

- **APA formatting is required for all three papers:** appropriate cover sheet, 12 pt. font, Times Roman, 1-inch margins, double-spaced, APA formatted References page with 1-2 appropriate in-text citations. (Please review the guidelines and templates provided on Blackboard.)
- 1. **Two (2) Analysis Papers: Case Study analysis papers:** Two individual assignments on ethics case studies are required, choosing two SAGE cases posted on Blackboard. Students will a) identify ethical issues found in the case, b) analyze the issue(s) through the four ethical frameworks and the professionalism framework, and c) provide a resolution to the ethical issue(s).
- 2. **One (1) Final Research Paper: A Professional Association's Code of Ethics research paper:** Students will research the professional ethical code or code of conduct associated with their major/professional career choice. Students should choose a professional association that provides a code of conduct or code of ethics for their chosen industry. (Example: Accounting majors will look for associations or

organizations that establish codes of conduct for the accounting profession, Marketing majors will look for their associations' code of ethics, etc.) Students should look beyond a specific employer, and find an association at the highest level of the industry – national or international level. Students should NOT use a specific employer's code of ethics, and the association described should be at the highest level of the industry – national or international level – rather than a local or state association. Students will use the headings and questions provided in the guideline and write a formal paper on the nature and substance of that code and the enforcement procedures of that profession.

NOTE: Guideline in Blackboard is not a “template” or form, but rather a guide for the headings and questions that need to be researched and addressed.

This is a formal paper and written communication will be assessed.

Quizzes

- Chapter quizzes will be available online through BlackBoard. Quizzes are open beginning day one, but will close at midnight on the due date.

Attendance:

- This is a 16-week course, and attendance will be assessed via Blackboard.

Participation:

- Discussion Boards and Peer Review process will assess participation.

Make-up and Late Assignment policy: As a general rule, make-ups or late submissions will NOT be offered or accepted for any missed assignments. Late submissions or make-ups may be accepted/administered only in extra-ordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed assignment.

Class conduct and civility code: Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:

1. It is the students' responsibility to obtain and be able to use the **required materials** and software for this class.
2. Student must retain copies of all assignments and graded work for verification purposes. Keep copies of all computer files and e-mails. **NOTE: Blackboard will close to students at midnight of the end of the class (following the finals schedule) – students will not be able to upload any deliverables or assignments after that date. Submissions via email cannot be accepted following that date as there will be no grading link available.**

3. For any questions about the assignments, a student should contact the instructor before the day they are due, so the instructor may have enough time to provide feedback.
4. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. The instructor will reply to a student e-mail messages and voice messages within 2 business days (Monday-Friday).
5. All assignment submissions must be uploaded to Blackboard by the due date and time. Submission window may close or submissions marked late, even if late by one second.

Anyone violating these policies may be subject to disciplinary actions.

Class Attendance and Participation: This course will be conducted online, and the course modality will be asynchronous. This will be challenging and will require excellent organizational and time management skills. A vital part of every student's education is regular attendance and engagement in the course offering. Any absences or lack of engagement tend to lower the quality of a student's work, and frequent or persistent absences may result in a failing grade. Students are responsible for the materials covered in class. The course covers a lot of material and most students find at least some parts of it challenging. Class participation is highly encouraged as it makes the class more interesting and enhances the learning experience. Students are strongly encouraged to ask questions and participate in class discussions and problem solving. Good attendance and participation will be rewarded when final grades are assigned.

The course is intensive and challenging and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important, and may vary considerably based on student background. However, a minimum of two hours of work outside of class is expected for every one hour of class period per week. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures and course expectations.

NOTE: This is an ASYNCHRONOUS class. Attendance to these class sessions IS NOT required. However, students are encouraged to review posted videos for additional course content information that will assist them in mastering this class. All materials, deliverables, examples, guidelines and templates will be made available on Blackboard, including streamed / recorded class sessions. It is important to log-in to BlackBoard frequently to document participation.

the University. The university will provide such reasonable modifications to pregnant students as would be provided to a student with temporary medical condition that are related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Pregnant/parenting students are encouraged to contact the Title IX Coordinator with any questions or concerns related to their status (titleix@tamusa.edu; 210-784-2061; CAB 439K). This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.

Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, sexual orientation, gender identity, gender expression, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.

A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike. Each student subject to disciplinary action arising from violations of university students' rules shall be assured a fundamentally fair process.

Students' Responsibilities

A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, Student Code of Conduct, on our website, and University Catalog, and to comply with them, as well as with

federal, state, and local laws. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning. A student has the responsibility to check their university email for any updates or official university notifications. We expect that students will behave in a manner that is dignified, respectful, and courteous to all people, regardless of sex, ethnic/racial origin, religious background, sexual orientation, or disability. Conduct that infringes on the rights of another individual will not be tolerated.

Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions.
