Students should not have another person/entity do the writing of any portion of an assignment for them, which includes using artificial intelligence (AI) tools like ChatGPT, while the use of AI tools is allowed during the study process. No AI tools are allowed for quizzes/exams.

Course Communications:

I will communicate any clarifications, changes and/or additions during class or using announcements via **Blackboard**. Students should monitor this several times a day. You will be responsible for any information I communicate to you via Blackboard. If you have any questions, please send me a Blackboard message (with a copy to email) or an email (xfei@tamusa.edu) using your university student email.

Course requirements every student must fulfill in order to succeed in this course:

1. The course is intensive and challenging, and you are expected to take an active role in your own learning. The structure of the class makes your individual study and preparation outside the class extremely important.
2. Students should remember that **hybrid courses** assume **greater** responsibility and independent learning skills by the student for their own learnings outcomes.

3. There are online units of learning posted to Blackboard. Students **MUST** complete the assigned course requirements on Blackboard and will be held accountable for all materials posted on Blackboard.
4. Ensure to set up expectation of time for this course. Change based on your course needs. You are expected to spend **3-6 hours per week** on the course. Based on the background, some students may need more time. Time spent may be longer when assignment/exams are due.
5. Do not delay. Plan to be successful by beginning your study **NOW**. The instructor will not be revising the grading systems based on anyone's initial poor performance.
6. Students should check the Course Calendar, Announcements, and Messages (e-mail) systems in Blackboard on a regular basis.
7. Students should keep current with all course assignments, quizzes, and examinations.
8. Students should ask questions and communicate with the instructor either in class, online, off-line or during office hours.

How to Be Successful in This Course:

In any course, a reliable structure to guide your learning of content is essential. Each week will follow the same basic format:

- *Before class:* You should read the corresponding pages in the book prior to class. We'll move at a quick pace during class so having some background knowledge will be helpful to understanding the lecture.
- *During class:* You should come to class ready to actively engage in learning the material. I can help to synthesize the material, point out the key concepts, and help structure your thinking. Students generally learn far more in less time during our class sessions than they do on their own.
- *After class:* You will complete the assigned homework. Be sure to drop by my office during the office hours or schedule an online zoom meeting if you have any questions related to the course materials. The lecture video will be posted to Blackboard for you to review.

Most of all, if at any time you think there is something more that I can do to help you, please don't hesitate to ask. I want you to enjoy the course, do the best you can, learn as much as you can, and understand the importance of accounting.

Grading Policy:

The final course grade will be based on your performance on the quizzes, exams, assignments and class participation using the following weights:

Class Attendance and Participation	10%
HW Assignments	35%
Quiz 1 (Review)	10%
Mid-term Exam	20%
<u>Final Exam</u>	<u>25%</u>
Total	100%

The final letter grades will be assigned as follows: Above 90% $\Rightarrow$ A; 80 – 89.99% $\Rightarrow$ B; 70 – 79.99% $\Rightarrow$ C; 60 – 69.99% $\Rightarrow$ D; below 60% $\Rightarrow$ F. **There will be no grading on a curve.**

This course has a requirement of a grade of C as a minimal grade for satisfactory completion of this course. If a student is found deficient in this course, the student must retake the course until the required minimum grade is achieved.

Class Attendance and Participation:

A vital part of every student's education is regular attendance of class meetings. You are expected to attend and participate in all class meetings. Excessive absences will negatively affect your learning and course grade. Students are strongly encouraged to ask questions in class, participate in class discussions and problem solving, and visit/contact the instructor during office hours in case of questions or concerns.

Missing 3 classes during the semester will result in a zero for the class attendance grade.

HW Assignments:

The best way to learn is to *do* accounting. Learning accounting takes a great deal of practice. Accordingly, homework is assigned for topics covered in the class. Students should work on homework assignments on their own. Some of the exam and quiz questions will be similar to the homework questions and examples in the lecture slides. Individual assignments and due dates will be posted through McGraw-Hill Connect and Blackboard. Be sure to take advantage of Hint videos that are available with many assignments and visit office hours that are available each week if needed. You can judge your development on the course by noting how well you understand the homework.

Examinations/Quizzes:

There will be one quiz and two exams during the semester. The exam/quiz will consist of conceptual multiple-choice questions, problem solving questions, and journal entries questions. The exam/quiz materials will come from lecture notes, homework assignments, and class discussions. Questions will emphasize understanding and applications of concepts and topics covered in class. Additional exam/quiz details will be provided prior to the test dates.

Make up and Late Exam/Quiz policy:

As a general rule, make-ups or late submissions will NOT be offered or accepted for any missed exams/assignments/quizzes. Late submissions or make-up may be accepted/administered only in extraordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed assignment/quiz/exam.

Class Conduct and Civility Code:

Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:

1. Attendance may be taken at the beginning or the end of the class.
2. Students must retain copies of all assignments and graded work for verification purposes and provide it to the instructor, if necessary. Keep own copies of all computer files and e-mails till final grade is received.
3. Talking while the instructor is lecturing is extremely disruptive and discourteous to the instructor and other students.

4. Using computers or phones (except for a valid urgent need) during class for a purpose not related to class is disruptive. All cell phones and gadgets should be turned OFF and headphones removed.
5. For any questions about the exams and quizzes, a student should contact the instructor, well in advance of the day they are due, so the instructor may have enough time to provide feedback.
6. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. The instructor will reply to student e-mail messages within 2 business days (Monday-Friday).

Anyone violating these policies may be subject to disciplinary actions.

A&M-San Antonio's Title IX Coordinator can support those impacted by such conduct in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, and more. The university strongly encourages all students to report any such incidents to the Title IX Coordinator. Please be aware that all A&M-San Antonio employees (other than those designated as confidential resources such as counselors and trained victim advocates) are required to report information about such discrimination and harassment to the university. The university will provide such reasonable accommodations to pregnant students as would be provided to a student with a temporary medical condition that are related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Students' Rights:

Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.

4. Each student subject to disciplinary action arising from violations of university students' rules shall be assured a fundamentally fair process.

Students' Responsibilities:

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, Student Code of Conduct, on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
