Examinations: There will be two mandatory mid-term exams and a mandatory final exam (as per university schedule). The exams/quizzes will consist of conceptual multiple-choice questions, and problem-solving questions. The exam/quiz materials will come from lecture notes, the text, and class discussions. Questions will emphasize understanding and applications of concepts and topics covered in class. **Missing an exam will result in a grade of zero for that exam and may result in a fail grade in the course.**

Assignments: Problem solving homework will be assigned for most of the chapters. The purpose of homework is to apply the information learned during class. Each problem-solving homework assignment will be available for two weeks to complete it. Students can refer to the homework schedule to find out exact dates for each assignment.

Make up and Late Assignment/exam/quiz policy: As a general rule, make-ups or late submissions will **NOT** be offered or accepted for any missed assignments/exams/quizzes. Late submissions or make-ups may be accepted/administered only in extraordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed assignment/quiz/exam.

Course Requirements every student must fulfill in order to succeed in course:

1. Students should check the Course Calendar, Announcements, and Emails on a regular basis.
2. Students should keep current with all course assignments, quizzes, and examinations.
3. If the course uses remote proctoring for exams, students must schedule their exam early in the semester.
4. Students should ask questions and communicate with the instructor in-person/online.
5. For all classwork, exams, quizzes etc., if a student is completing it off-campus, then they are responsible for availability of internet connectivity. Extensions will not be granted for lack of availability of internet connections.
6. Students should remember that online and hybrid courses assume greater responsibility and independent learning skills by the student for their own learning outcomes.
7. For online courses, students should keep current on class recordings.
8. For online asynchronous courses, there will be no online class sessions. All materials will be made available through Blackboard or through online links.

Course Drop Policy: You may drop the course on or before **November 13, 2026**, with an automatic grade of W. If you wish to drop the class after that date, you will receive either a W (if you have satisfactory record so far) or F. The last date to drop a course or withdraw from the University is **November 30, 2026**. If you wish to drop the class, you must submit the necessary paperwork to the proper authority.

Class conduct and civility code: Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions online, including the following:

1. It is the students' responsibility to obtain and be able to use the required materials and software for this class.
2. For any questions about the exams and assignments, a student should contact the instructor **before the day they are due**, so the instructor may have enough time to provide feedback.
3. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. It is the responsibility of the student to check their TAMUSA email regularly to receive updates on the logistics of the course. The instructor will reply to a student e-mail messages within 48 hours during weekdays (Monday-Friday).

Anyone violating these policies may be subject to disciplinary actions.

Class attendance and Participation: A vital part of every student's education is regular attendance of class meetings (for face-to-face/hybrid classes/online synchronous classes) or **regular review of class materials posted by the instructor for asynchronous classes**. Any absences tend to lower the quality of a student's work, and frequent or persistent absences may result in a failing grade. Students are responsible for the materials covered in class.

The course covers a lot of material, and most students find at least some parts of it difficult. The course is intensive and challenging, and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures.
