Required Materials:

- **Textbook:** *Foundations of Business*, 7th Edition, by William M. Pride, Robert J. Hughes, and Jack R. Kapoor. ISBN-13: 9780357717943. Published by Cengage.
- **Blackboard:** Connect to <http://tamusa.blackboard.com>. You will have lecture notes, solutions to problems, multimedia materials and other supplementary materials in Blackboard.
- **Software:** You will be required to use Microsoft Word; Microsoft PowerPoint and Microsoft Excel
- **Computer Hardware:** To participate in online sessions, you will need a computer with an internet connection, a microphone, and speakers/headphones. To complete the class work, you will need appropriate software installed on the computer.
- **Time Expectation for coursework:** You are expected to spend 4- 8 hours per week for the course. Please read the chapter of the book prior to when they are scheduled to be reviewed in class. Based on the background, some students may require more time. Time spent may be longer when assignment/exams are due.

Other Recommended / Reading Materials: Additional reading materials are available on the course website as recommended by the instructor. You may be required to utilize campus library/internet to analyze current news articles published (published within 6 months) from one of the following: Wall Street Journal, Business Week, San Antonio Business Journal, or other recognized business publications.

Course Requirements every student must fulfill in order to succeed in course:

1. Students should check the Course Calendar, Announcements, and Messages (e-mail) systems in Blackboard on a regular basis.
2. Students should keep current with all course assignments, quizzes, and examinations.
3. If the course uses remote proctoring for exams, students must schedule their exam early in the semester.
4. Students should ask questions and communicate with the instructor either in class, online, off-line or during office hours.
5. For all classwork, exams, quizzes etc., if a student is completing it off-campus, then they are responsible for availability of internet connectivity. Extensions will not be granted for lack of availability of internet connections.
6. Students should remember that hybrid and online courses assume greater responsibility and independent learning skills by the student for their own learning outcomes.
7. For online-asynchronous courses, students should keep current on class recordings. For online-synchronous courses, students are expected to attend virtually during the class meeting time.
8. For OLC-A courses, students are not required to come to class, even for proctored examinations.
 - a. The instructor can require students to take examinations using proctoring software as indicated in the Proctored Exams section.
 - b. The instructor decides which type of examination works best for the class and the student must comply with their instructions – as long as they are not required to take an in-class examination or are required to take the examination at one specific time that applies to all students. In other words, the instructor will offer the student some flexibility on test location and the time to sit for the examination. Instructors should allow 72 hours for students to complete any examination.

Grading Policy: The final course grade will be based on your performance on the quizzes, exams, assignments, and class participation using the following weights:

Discussion Questions (4) - 20 points each	80	16%
Quizzes (2) – 50 points each	100	20%
Mid-Term – Exam	100	20%
Written Paper Assignment – Case Studies	100	20%
Final – Exam	120	24%
Total	500	100%

The final letter grades will be assigned as follows: Above 90% ⇒ A; 80 – 89% ⇒ B; 70 – 79% ⇒ C; 60 – 69% ⇒ D; Below 60% ⇒ F.

Examinations and Quizzes: There will be two (2) quizzes along with mandatory mid-term and final exams (per university schedule) for this course. Being absent / non-submission of an exam will result in a grade of zero for that exam and may result in a failing grade in the course. The exams/quizzes will consist of conceptual multiple-choice questions, and true/false questions. The exam/quiz materials will come from lecture notes, the text, and class discussions. Questions will emphasize understanding and applications of concepts and topics covered in class.

Discussion Questions: Students will participate in regular online blackboard discussions, including posting and responding on the scheduled dates provided. There will be four (4) discussion board tasks this semester, each posted on blackboard and each focusing on a deferent section of the textbook. Students must respond to each discussion question and provide a reply to another student’s response to each question. Again, to obtain full credit you must respond to each discussion question utilizing information from the textbook, or lecture, and provide a thoughtful substantive reply to another student’s response. A substantive reply to a discussion comment reflects understanding of the readings/topics and other related information. A supportive comment, such as “I agree with John” or “Yeah-that is my opinion, too,” is not considered substantive. You can still make those comments, but they would **not count**. If someone has already said what you intended to say, you will have to find something else to say. Specific details on posting and due dates will be posted on Blackboard and listed on the syllabus.

Assignments: There will be one written paper assignment due at the end of the course. The assignment will consist of reading details of specific cases from the textbook, and then answering questions corresponding to each case by utilizing information obtained from course materials. The individual assignment details and due date will be posted through Blackboard and listed on the syllabus.

Make up and Late Assignment/exam/quiz policy: As a general rule, make-ups or late submissions will NOT be offered or accepted for any missed assignments/exams/quizzes. Late submissions or make-ups may be accepted/administered only in extra-ordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed assignment/quiz/exam.

Class conduct and civility code: Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:

1. Attendance may be taken at the beginning or the end of the class.

2. It is the students' responsibility to obtain and be able to use the required materials and software for this class.
3. Students must retain copies of all assignments and graded work for verification purposes and provide it to the instructor, if necessary. Keep your own copies of all computer files and e-mails till the final grade is received.
4. Talking while the instructor is lecturing is extremely disruptive and discourteous to the instructor and other students.
5. Using computers or phones (except for a valid urgent need) during class for a purpose not related to class is disruptive. All cell phones and gadgets should be turned OFF and headphones removed.
6. For any questions about the exams and assignments, a student should contact the instructor well in advance of the day they are due, so the instructor may have enough time to provide feedback.
7. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. The instructor will reply to student e-mail messages and voice messages within 2 business days (Monday-Friday).
8. All assignment submissions must be uploaded to Blackboard by the due date and time. Submission window may close or marked late, even if late by one second.

Anyone violating these policies may be subject to disciplinary actions.

Class attendance and Participation: A vital part of every student's education is regular attendance of class meetings. Any absences tend to lower the quality of a student's work, and frequent or persistent absences may result in a failing grade. Students are responsible for the materials covered in class. The course covers a lot of material, and most students find at least some parts of it difficult. Class participation is highly encouraged as it makes the class more interesting and enhances the learning experience. Students are strongly encouraged to ask questions, participate in class discussions and problem solving, and visit/contact the instructor during office hours in case of questions or concerns. Good attendance and participation will be rewarded when final grades are assigned.

The course is intensive and challenging and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important and may vary considerably based on student background. However, a **minimum** of two hours of work outside the class is expected for every one hour of class period per week. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures.

Fall 2026 Class Schedule: The provisions and information set forth in the schedule below are intended to be informational and not contractual in nature. The instructor reserves the right to amend, alter, change, delete or modify the provisions of the schedule.
