COURSE DESCRIPTION

Spanish Language Studies IV continues to focus on the development of academic reading and writing skills, conversation skills, and intercultural competency to develop bilingual and bicultural literacy. The course emphasizes the role of students as storytellers and communicators within their communities.

Prerequisites: SPAN 2311 or [SPAN 2313](#) or SASPE placement score 21-25.

Students will read, interpret, historical and cultural products from Spanish-speaking countries and produce their own multimedia narratives about the own communities.

Students wishing to enroll in Spanish must take the A&M-SA Spanish Placement Exam (SASPE) for appropriate placement.

Attendance

Attendance and participation are mandatory. You must come to class **every week** and you must be ready to participate actively in class discussion as well as small group activities. Attendance factors into your participation grade.

- You are allowed **two** “grace” absence, which cannot be taken on a day when you are scheduled to make a presentation or a report. For each subsequent absence 2% will be deducted from your final grade.
- Missed work can only be made up if you have valid documentation. Legitimate excused absences include the following: verifiable confining illness, serious verifiable family emergencies, subpoenas, jury duty, and military service. It is your responsibility to notify the instructor of any excused absences as far in advance as possible. Work must be made up in a timely manner (e.g. before the next scheduled evaluation).
- Documentation for excused absences must be presented as soon as possible. No documentation will be accepted after the last day of regularly scheduled classes.

Class participation

This course is conducted in Spanish. Students are expected to participate (group discussions and assignments) in Spanish. This is a class for YOU to feel confident producing the Spanish you may have heard before as you were growing up. Taking risks in Spanish is crucial for you to build up your oral skills. The use of Spanish is expected in every activity in the class with the instructor and classmates, but the class also welcomes **translanguaging**. You are expected to attend all classes, read the material before class, and participate actively in classroom activities. **You will be expected to participate in class activities and discussions, to continue to improve your speaking fluency.** A grading rubric for oral participation will be provided. Keep in mind that if you are absent, you will receive no participation points for that day.

AI Policy

No Use of Generative AI Permitted

SPAN 2315 900 assumes that all work submitted by students will be generated by the students themselves, working individually or in groups. Students should not have another person/entity do the writing of any portion of an assignment for them, which includes hiring a person or a company to write assignments and/or using artificial intelligence (AI) tools

like ChatGPT. Use of any AI-generated content in this course qualifies as academic dishonesty and violates Texas A&M-San Antonio's standards of academic integrity.

Course Material and Academic Freedom

The materials and activities in this class were developed based on the instructor's subject-matter expertise and align with norms and best-practices in the discipline you are learning.

- As the Student Handbook states, "students will be free to take reasoned exception to the data or views in any course of study and to withhold judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled."
- The instructor will respect the rights enumerated in the handbook, including "respect for personal feelings; freedom from indignity of any type, freedom from control by any person except as may be in accord with Texas A&M University-San Antonio, and conditions allowing them to make the best use of their time and talents toward the objectives which brought them to this University." The instructor asks that you respect the rights of your classmates to learn and have a positive experience in this class.
- You are asked to respect the instructor's intellectual property and not share materials from the class with those outside of the university community and that you respect academic freedom, which presumes that "teachers are entitled to freedom in the classroom in discussing their subject."
- Should you have concerns about any of the materials in this course, please contact your instructor to discuss their disciplinary relevance and to explore strategies for completing the work in a way that is both acceptable to you and aligned with course objectives. These conversations should take place before or after class so as not to disrupt the learning experience of others.

What is academic freedom?

Based on four, interrelated components:

- Teaching: freedom to discuss all relevant matters in the classroom;
- Research: freedom to explore all avenues of scholarship, research, and creative expression and to publish the results of such work;
- Intramural speech: freedom from institutional censorship or discipline when addressing matters of institutional policy or action; and

- Extramural speech: freedom from institutional censorship or discipline when speaking or writing as citizens.

Not equivalent to freedom of speech, as it is based in an academic's subject-matter expertise.

Students' Rights and Responsibilities

The following statement of students' rights and responsibilities is intended to reflect the philosophical base upon which University Student Rules are built. This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.
2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university student rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, [Student Code of Conduct](#), on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
5. A student has the responsibility to check their university email for any updates or official university notifications.

We expect that students will behave in a manner that is dignified, respectful, and courteous to all people, regardless of sex, ethnic/racial origin, religious background, or disability. Conduct that infringes on the rights of another individual will not be tolerated.

Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course syllabus or class discussion may be considered as academic misconduct. For more

information on academic misconduct policies and procedures please review the [Student Code of Conduct](#) or visit the resources available in the [OSRR website](#)
