Course Description

- ✚ By focusing on academic expectations, success strategies, and career exploration, this course equips first-year students with the skills needed for a successful transition to university life. Students will learn to access and utilize campus resources, develop self-awareness and personal agency, and practice habits that foster responsibility and engagement. The course also encourages active participation in the campus community as students build a foundation for their academic and personal goals.

Course Promises (Course Learning Outcomes)

- ✚ This course makes a set of promises to you if you fulfill the **Course Expectations** listed below. Course promises with objectives:

1. Exhibit growth in self-awareness, agency, and personal responsibility

Students will achieve this by:

- **Assess** their personal strengths, challenges, and learning preferences.
 - **Demonstrate** personal responsibility by meeting course expectations (e.g., deadlines, attendance, participation) consistently over the term.
 - **Create and revise** a personal action plan that reflects growth in decision-making and ownership of academic success.
-

2. Adapt and apply appropriate academic strategies to courses and learning experiences

- **Identify and select** at least three academic strategies (e.g., note-taking, studying, test preparation) appropriate for different course demands.
 - **Apply** selected strategies in coursework and **provide evidence** (e.g., notes, study plans, assignments).
 - **Evaluate and adjust** their strategies based on performance feedback and learning outcomes.
-

3. Identify and apply strategies to effectively manage time and priorities

- **Develop** a weekly or monthly schedule that includes academic, work, and personal responsibilities.
 - **Prioritize** tasks using a structured system (e.g., to-do list, planner, or digital tool).
 - **Monitor and revise** their time management plan based on completion rates and competing demands.
-

4. Identify relevant academic policies, processes, and resources relevant to academic success

- **Locate and summarize** key academic policies (e.g., syllabus expectations, academic integrity, students' rights and responsibilities, add/drop deadlines).
- **Identify and describe** at least three campus resources (e.g., tutoring, counseling, advising, library, student life) **and their purpose**.
- **Demonstrate** how to access or use multiple resources (e.g., scheduling an appointment, navigating a website).

5. Develop goal-setting strategies to enhance academic and career readiness

- **Write** short-term and long-term academic and career goals using a structured framework (e.g., SMART goals).
 - **Create** a step-by-step action plan aligned with their goals.
 - **Evaluate and revise** goals based on progress and new information about their academic or career interests.
-

Course Expectations

Attend classes! Attendance and Participation (100 Points)

- Attendance and participation are worth 100 points of your **final grade**.
- You will earn points throughout the semester by:
 - **Attending class**
 - **Arriving on time**
 - **Participating in discussions and activities**
 - **Engaging with course content**
- Attendance points **cannot** be made up for unexcused absences.
 - Because much of the learning in this course **occurs through in-class interaction**, students who are absent will also miss opportunities to complete participation activities and earn associated points
- Students **arriving 15 or more minutes late** or leaving early will be **marked absent** from the class session and **will not earn attendance points for that day**.
- **Excessive tardiness (3+)** may result in additional **reductions** to participation points

Excused Absences

- Students are expected to attend all class sessions. An **absence may be considered excused** for the following reasons:
 - University-sponsored activities that require the student's participation
 - Religious days as recognized by university policy
 - Military service obligations
 - Serious illness, medical emergencies, or hospitalization of the student
 - Death or serious illness of an immediate family member
 - Other circumstances required by university policy or approved by the instructor
- Whenever possible, students should **notify the instructor in advance** of an anticipated absence. Documentation may be requested for excused absences
- Excused absences do not result in disciplinary action; however, attendance and participation points associated with missed class sessions generally cannot be earned without completing an alternative assignment.
- The alternative assignment is at the discretion of the FYS faculty member.
 - **While students may encounter circumstances that require them to miss class, accumulating more than four absences for any reason may result in removal from the course.**

Be Attentive & Participate in Class

 **Active participation** during class, both verbally and nonverbally, **is a must**. Some examples of this are:

- Speaking
- Listening
- Following directions
- Asking questions
- Sharing with others
- Reading
- Writing
- Individual reflections
- Presenting
- Collaboration

 I encourage you to contribute thoughtful comments and questions, listen carefully to your peers' contributions, and respond respectfully to others' comments. The success of our mutual learning depends on preparation and active participation in all aspects of the course.

Complete Required Assignments in a Timely Manner

A food pantry is available on campus; click [here](#) for hours and contact information.

Religious Observances

Texas A&M University-San Antonio recognizes the wide variety of faiths represented among the campus community and protects the rights of students, faculty, and staff to observe religious holidays according to their tradition. Under the policy, students are provided with an opportunity to make up any examination, study, or course work requirements that may be missed due to a religious observance provided they notify their instructors before the end of the second week of classes for regular session classes.

The Six-Drop Rule

Students are subject to the requirements of Senate Bill (SB) 1231 passed by the Texas Legislature in 2007. SB 1231 limits students to a maximum of six (6) non-punitive course drops (i.e., courses a student chooses to drop) during their undergraduate careers. A non-punitive drop does not affect the student's GPA. However, course drops that exceed the maximum allowed by SB 1231 will be treated as "F" grades and will impact the student's GPA.

Statement of Harassment and Discrimination

Texas A&M University-San Antonio is committed to the fundamental principles of academic freedom, equal opportunity, and human dignity. To fulfill its multiple missions as an institution of higher learning, A&M-San Antonio encourages a climate that values and nurtures collegiality and the uniqueness of the individual on our campus and within our state, nation, and world. All decisions and actions involving students and employees are to be based on applicable law and individual merit. Texas A&M University-San Antonio, in accordance with applicable federal and state law, prohibits discrimination, including harassment, on the basis of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, sexual orientation, or pregnancy/parenting status. Individuals who believe they have experienced harassment or discrimination prohibited by this statement are encouraged to contact the University's Civil Rights Officer at 210-784-2061 or titleix@tamusa.edu.

Texas A&M University-San Antonio faculty are committed to providing a safe learning environment for all students and for the university as a whole. If you have experienced any form of sex discrimination or harassment, including sexual assault, sexual harassment, domestic or dating violence, or stalking based on sex, know that help and support are available. A&M-San Antonio's Title IX Coordinator can support those impacted by such conduct in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, and more. The university strongly encourages all students to report any such incidents to the Title IX Coordinator. Please be aware that all A&M-San Antonio employees (other than those designated as confidential resources such as counselors and trained victim advocates) are required to report information about such discrimination and harassment to the university. This means that if you tell a faculty member about a situation of sexual harassment, sexual violence, or other related sex-based misconduct, the faculty member must share that information with the university's Title IX Coordinator (titleix@tamusa.edu, 210-784-2061, CAB 439K). If you wish to speak to a confidential employee who does not have this reporting requirement, you can contact the Student Counseling Center at (210) 784-1331 or visit them in Madla 120.

Pregnant/Parenting Students

Texas A&M-San Antonio does not require a pregnant or parenting student, solely because of that status or issues related to that status, to (1) take a leave of absence or withdraw from their degree or certificate program; (2) limit the student's studies; (3) participate in an alternative program; (4) change the student's major, degree, or certificate program; or (5) refrain from joining or cease participating in any course, activity, or program at the University. The university will provide such reasonable accommodations to pregnant students as would be provided to a student with a temporary medical condition that are related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Pregnant/parenting students are encouraged to contact the Title IX Coordinator with any questions or concerns related to their status (titleix@tamusa.edu; 210-784-2061; CAB 439K).

Texas A&M-San Antonio has also designated the Title IX Coordinator as the liaison officer for current or incoming students who are the parent or guardian of a child younger than 18 years of age. The Title IX Coordinator can provide students with information regarding support services and other resources.

Students' Rights and Responsibilities

The following statement of students' rights and responsibilities is intended to reflect the philosophical base upon which University Student Rules are built. This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition, and peaceful assembly as set forth in the U.S. Constitution.
2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university student rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, [Student Code of Conduct](#), on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
5. A student has the responsibility to check their university email for any updates or official university notifications.

We expect that students will behave in a manner that is dignified, respectful, and courteous to all people, regardless of sex, ethnic/racial origin, religious background, or disability. Conduct that infringes on the rights of another individual will not be tolerated.

Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course

syllabus or class discussion may be considered as academic misconduct. For more information on academic misconduct policies and procedures please review the [Student Code of Conduct](#) or visit the resources available in the [OSRR website](#).

Artificial Intelligence Policy

There are situations and contexts within this course where you may be asked to use artificial intelligence (AI) tools to explore how they can be used. Outside of those circumstances, you should not use AI tools to generate content (text, video, audio, images) that will end up in any student work (assignments, activities, discussion responses, etc.) that is part of your evaluation in this course. Any student work submitted using AI tools should clearly indicate with attribution what work is the student's work and what part is generated by the AI. In such cases, no more than 25% of the student's work should be generated by AI. If any part of this is confusing or uncertain, students should reach out to their instructor for clarification before submitting work for grading. Use of AI-generated content without the instructor's permission and/or proper attribution in this course qualifies as academic dishonesty and violates Texas A&M-San Antonio's standards of academic integrity.

This syllabus was created to give students guidance on what may be covered during the semester and will be followed as closely as possible. **Please note that the instructor for this course reserves the right to make changes to this syllabus at any point during the semester.**
