Texas A&M University-San Antonio College of Education and Human Development EDCI 5313: Qualitative Research Methods

A. MAJOR COURSE REQUIREMENTS:

- Various Qualitative Research design activities
 - Data Collection Methodologies
 - Coding Methodologies
 - Qualitative Data Analysis Methodologies
 - o Reporting Qualitative Research Findings

B. LEARNING OBJECTIVES:

Upon completion of this course, the student will be able to:

- 1. Describe the importance and use of research in making informed educational decision.
- 2. Identify, classify, and critique educational studies by method/paradigm and describe different traditions informing qualitative, quantitative, and mixed-methods research methodologies.
- 3. Recognizing how and when qualitative, quantitative, and mixed-methods modes of inquiry (research) can be productive for practitioner research (teacher/administrator) and academic educational research.
- 4. Understand the basic methods and means used to collect and analyze data informed by the qualitative, quantitative, and mixed-methods research paradigms and applied in educational contexts.
- 5. Recognize the implications/impact of the choices made in design, implementation, analysis, and reporting of findings/conclusions in qualitative, quantitative and mixed-methods research as applied in educational contexts.
- 6. Apply knowledge and skills developed in this course to the completion of the scholarly research manuscript component of this Master's Program- to include, following the format (writing conventions) of the Publication Manual of the American Psychological Association (7th ed.).

C. LECTURE OR DISCUSSION TOPICS

- Qualitative, naturalistic and ethnographic research
- Historical and documentary research
- Surveys, longitudinal, cross-sectional and trend studies
- Case Studies
- Meta-analysis
- Methods of Data Collection
- Data Analysis and Reporting
