Please note that you may only upload PDF files, Word documents, videos, or audio files directly to Blackboard. Links to Google Docs or SharePoint files will not be accepted, as I am often unable to view those files due to sharing permissions.

Grades

This course is reading-intensive (50+ pages assigned per week), and will also include a lot of writing and research. Please be prepared to discuss online assigned readings, but do not be afraid to voice different and unique perspectives on literary texts and their meanings. To succeed in this course, it is crucial that you read all assigned texts, develop original ideas about those texts and their authors, take detailed notes, engage with your peers during online discussions and workshops, write with integrity and inspiration, and ask for help!

I grade assignments each week with written feedback. You can check your total grade at any time in Blackboard. Please email me or visit my [Zoom Virtual Office](#) during office hours to request an extension in advance, or a revision. Late assignments lose 1 point per day late.

Respect

I am committed to fostering a respectful online course environment in which different backgrounds and perspectives are acknowledged. While working with classmates and your professor online, you will respectfully listen to others' perspectives, share your own perspectives, and value the opportunity to learn from each other. Demonstrating respect for those different from you not only prepares you for success in your university courses, but also prepares you for success as citizens and professionals. If you use violent, harassing, and or discriminatory language, you will be reported to the university and may be subject to Student Code of Conduct policies.

Plagiarism

Plagiarism is defined as the intentional use of another's "language, ideas, or original (not common-knowledge) material" without acknowledgement (["Defining and Avoiding Plagiarism"](#)). If you plagiarize, copy, or otherwise cheat on an assignment, you will receive a permanent zero on that assignment without the opportunity for revision.

Generative AI

I expect you to generate your own content this semester. Relying on generative AI to write content for you prevents you from growing as a university-level writer and critical thinker. However, there are situations and contexts within this course where you may use generative artificial intelligence (GAI) tools to support your work as a literary writer and scholar. For example, GAI technologies such as ChatGPT can work well as a starting point for written assignments, assisting you with brainstorming, outlining, generating ideas, and collecting basic information about a topic/idea. Note that the emphasis here is on "support." GAI programs have been shown to provide biased or incorrect information, and to generate writing that lacks human imagination. For these reasons, I discourage you from using GAI technology to generate content **for you**. If you have reason to use GAI to generate content **with you**, consult with me before doing so. If your professor approves your use, you should acknowledge the GAI program you have used and identify which portions of the text you submitted were produced by GAI. Using GAI content without your professor's permission and/or without proper attribution qualifies as plagiarism.

The university will provide such reasonable accommodations to pregnant students as would be provided to a student with a temporary medical condition that are related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Texas A&M-San Antonio has also designated the Title IX Coordinator as the liaison officer for current or incoming students who are the parent or guardian of a child younger than 18 years of age. Students' Rights and Responsibilities: The following statement of students' rights and responsibilities is intended to reflect the philosophical base upon which University Student Rules are built. This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.
2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university student rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, Student Code of Conduct, on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
5. A student has the responsibility to check their university email for any updates or official university notifications.

We expect that students will behave in a manner that is dignified, respectful, and courteous to all people, regardless of sex, ethnic/racial origin, religious background, or disability. Conduct that infringes on the rights of another individual will not be tolerated. Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course syllabus or class discussion may be considered as academic misconduct.
