Course Requirements every student must fulfill in order to succeed in course:

1. Students should check the Course Calendar, Announcements, and Messages (e-mail) systems in Blackboard on a regular basis.
2. Students should keep current with all course assignments, quizzes, and examinations.
3. If the course uses remote proctoring for exams, students must schedule their exam early in the semester.
4. Students should ask questions and communicate with the instructor either in class, online, off-line or during office hours.
5. For all classwork, exams, quizzes etc., if a student is completing it off campus, then they are responsible for availability of internet connectivity. Extensions will not be granted for lack of availability of internet connections.

6. For Online, Hybrid and Hyflex courses, students should assume greater responsibility and independent learning skills for their own learning outcomes.
7. For online asynchronous courses, there will be no online class sessions. All materials will be made available through Blackboard or through online links.

Grading Policy: The final course grade will be based on your performance on the quizzes, exams, assignments and class participation using the following weights:

SmartBook & HW Assignments	40%
Two Unit Exams	35%
Final Exam (as per University Schedule)	25%
Total	100%

The final letter grades will be assigned as follows: Above 90% $\Rightarrow$ A; 80 – 89% $\Rightarrow$ B; 70 – 79% $\Rightarrow$ C; 60 – 69% $\Rightarrow$ D; Below 60% $\Rightarrow$ F.

This course has a requirement of a grade of C as a minimal grade for satisfactory completion of this course.

Examinations: There will be two unit exams and a comprehensive final exam (as per university schedule). Being absent from an exam will result in a grade of zero for that exam and may result in a failing grade for the course. There may be quizzes during class in most classes. Students who are not present at the time a quiz is given will be marked absent and get a grade of zero. The exams/quizzes will consist of conceptual multiple-choice questions, problem solving questions, and short essay questions. The exam/quiz materials will come from lecture notes, textbook(s), and class discussions. Questions will emphasize understanding and applications of concepts and topics covered in class.

Proctored Exams: In order to ensure course integrity, Exams in this class may be administered using a secure online or in-person testing service. If a proctoring service is used, details regarding proctored test sign up and administration will be provided at least 1 week prior to the exam.

Homework Assignments: There will be several homework assignments during the course. All assignments are web-based exercises and problems. You may take each assignment up to two [2] times to demonstrate mastery of the material. In addition to regular HW assignments, students will also need to complete SmartBook (SB) assignments, which may be taken as many times as needed. All assignments will be administered through the Connect platform.

Make up and Late Assignment/exam/quiz policy: As a rule, make-ups or late submissions will NOT be offered or accepted for any missed assignments/exams/quizzes. Late submissions or make-ups may be accepted/administered only in extraordinary circumstances such as an excused official university activity, a severe illness or a dire emergency resulting hospitalization or equivalent. However, you must provide comprehensive documentation either before or within a few days of the missed assignment/quiz/exam.

Class conduct and civility code: Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:

1. Attendance may be taken by an appropriate method by the instructor.
2. It is the students' responsibility to obtain and be able to use the required materials and software for this class.
3. Students must retain copies of all assignments and graded work for verification purposes and provide it to the instructor, if necessary. Keep own copies of all computer files and e-mails until final grade is received.
4. Talking while the instructor is lecturing is extremely disruptive and discourteous to the instructor and other students.
5. Using computers or phones (except for a valid urgent need) during class for a purpose not related to class is disruptive. All cell phones and gadgets should be turned OFF.
6. For any questions about the exams and assignments, a student should contact the instructor well in advance of the day they are due, so the instructor may have enough time to provide feedback.
7. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. The instructor will reply to a student e-mail within 2 business days (Monday-Friday).
8. All assignment submissions must be uploaded as instructed by the due date and time. Submission window may close or marked late, if not uploaded on time and be penalized for it.
9. Audio and video recording of lectures is not permitted without prior approval of the professor.

Class attendance and Participation: A vital part of every student's education is regular attendance of class meetings (for face-to-face/hybrid/online synchronous classes) or regular review of class materials posted by the instructor for asynchronous classes. Any absences tend to lower the quality of a student's work. A student will be dropped, or receive a failing grade, if they are absent from class 4 or more times during the term. Leaving class prior to dismissal will be counted as an absence. Students are responsible for the materials covered in class. The course covers a lot of material, and most students find at least some parts of it difficult. Class participation is highly encouraged as it makes the class more interesting and enhances the learning experience. Students are strongly encouraged to ask questions, participate in class discussions and problem solving, and visit/contact the instructor during office hours in case of questions or concerns. Good attendance and participation may be rewarded when final grades are assigned.

The course is intensive and challenging, and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important and may vary considerably based on student background. However, a minimum of two hours of work outside the class is expected for every one hour of class period per week. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures.

University Email Policy and Course Communications: All correspondence between professors and students must occur via University email accounts. You must have your Jaguar email account ready and working. If it is not working, contact the help desk at helpdesk@tamusa.edu or at 210-784-HELP (4357). If you don't hear back within 48 hours, contact them again. They have many requests during the first part of the semester, so you may need to follow up with them.
