Course Learning Objectives: This course's goal is to inform and influence the leadership practices of students and to contribute to the student's scholarly growth. Theories are discussed chronologically, as they emerged and were influential during the past 200 years, with a principle focus on modern theories. However, current conversations on leadership frame the initial and final discussions in the course and provide a context for considering the historical divisions of theory. Students in this course will be expected to articulate their leadership and managerial philosophies on various topics and to articulate effective leadership skills. Students will also formulate research questions for possible further exploration.

Student Learner Outcomes (SLO): As a result of the class and successful completion of course assignments and lessons, students will:

1. Students will be able to demonstrate orally and in writing a knowledge base fundamental to philosophy.
2. Students will be able to explain the philosophical positions and name the key advocates of the following: Idealism, Realism, Thomism, Perennialism, Essentialism, Pragmatism, Progressivism, Existentialism, and Postmodernism.
3. Students will plan, prepare, and participate in online presentations about the theory of philosophy.
4. Demonstrate the ability in analyzing philosophical conflicts and contemporary issues.
5. Students will be able to articulate a compelling and distinctive personal philosophy.
6. Demonstrate problem solving ability and decision making skill in considering theoretical philosophy..

Performance Evidence: This course will be administered through readings, practical exercises, online resources, and discussion/reflection. The critical assignment is designed to demonstrate the student's

competency of learner outcomes. On-line activities will provide opportunities for application.

Instructional Strategies and Methods: This F2F class course contains multiple assignments and a quality style leadership term paper.

Course Objectives: This is a challenging course. You should expect to work hard. If you wish to speak to a confidential employee who does not have this reporting requirement, you can contact the Student Counseling Center at (210) 784-1331 or visit them in Madla 120.

The university will provide reasonable accommodation for pregnant students as it would be

provided to a student with a temporary medical condition that is related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Pregnant/parenting students are encouraged to contact the Title IX Coordinator with any questions or concerns related to their status (titleix@tamus.edu; 210-784- 2061; CAB 439K).

Texas A&M-San Antonio has also designated the Title IX Coordinator as the liaison officer for current or incoming students who are the parent or guardian of a child younger than 18 years of age. The Title IX Coordinator can provide students with information regarding support services and other resources. Young Jaguars can support parenting students with daycare if students meet this criteria: (1) must be enrolled in classes at Texas A&M-San Antonio in the current semester, (2) must be Pell eligible or a single parent, (3) child(ren) must be aged 3 to 12-years-old, and (4) child(ren) must be enrolled in Pre-K-3 through 6th grade. Students' Rights and Responsibilities

The following statement of students' rights and responsibilities is intended to reflect the philosophical base upon which University Student Rules are built. This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.
2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university students' rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.

2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, Student Code of Conduct, on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.

3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.

4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.

5. A student has the responsibility to check their university email for any updates or official university notifications.

Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course syllabus or class discussion may be considered as academic misconduct. Use of Generative AI Permitted Under Some Circumstances or With Explicit Permission:

There are situations and contexts within this course where you may be asked to use artificial intelligence (AI) tools to explore how they can be used. Outside of those circumstances, you should not use AI tools to generate content (text, video, audio, images) that will end up in any student work (assignments, activities, discussion responses, etc.) that is part of your evaluation in this course. Any student work submitted using AI tools should clearly indicate with attribution what work is the student's work and what part is generated by the AI. In such cases, no more than 25% of the student work should be generated by AI. If any part of this is confusing or uncertain, students should reach out to their instructor for clarification before submitting work for grading. Use of AI-generated content without the instructor's permission and/or proper attribution in this course qualifies as academic dishonesty and violates Texas A&M-San Antonio's standards of academic integrity.
