Communication is Key

Please contact me through **Blackboard Messages**. This is my **preferred** method of communication as emails can get buried in inboxes. This ensures your messages are organized and replied to in a timely manner. I check Blackboard daily but may respond within 24 hours on weekdays.

- On the weekends, I am generally not available by email but will reply on the subsequent Monday. If you need to contact me, please plan, especially when it comes to clarifying assignment instructions and/or submission requirements.
- In all communications, please be professional and be specific in your message (i.e., avoid informal correspondence styles like text messaging).
- I will be available to meet during student hours (see times listed above) by appointment. You must make your appointment **24 hours in advance**. Student hours are dedicated to interacting with and providing students with assistance regarding course work.
- If there is a specific assignment/materials or topic you want to discuss, providing advance notice will allow me to have these resources ready.
- **It is also very important to connect with your peers in class. I highly recommend the class find ways to connect with each other.**

If students cannot meet during these times, an alternative time can be requested via Blackboard Messages, and I will do my best to try to accommodate students accordingly (or see me after class).

Assignment Descriptions

Scientific Communication, Organization, and Planning Exercises (SCOPE) – 20 points each

There will be several weeks where students will practice their scientific communication, organization, planning skills with SCOPE. Students must attend class to be eligible to earn points on these assignments. Without a university approved excuse, no make-up for SCOPE assignments will be accepted. These assignments will help develop and reinforce important skills related to the term paper in this course (see below).

Writing Appointments – 40 points each

As per course requirements, there are two occasions when students will individually meet with their instructor to discuss their term paper (see syllabus calendar). These appointments are mandatory and will be held in my office or via Zoom (depending on student's preferences). During these individual meetings, students will have an opportunity to discuss various aspects related to their research topic and receive expert feedback and guidance from their instructor. For these meetings to be successful, students will need to be organized, arrive promptly on time, and have their various writing documents open/accessible including their APA manual. If students are using an electronic device, make sure it is fully charged and connected to the university Wi-Fi prior to arrival. Additionally, students are strongly encouraged to have specific questions prepared to ask and should take notes during these meetings to serve as helpful reminders when writing later.

Review Assignments – 40 points each

Writing is a practice-driven craft. As a wise person once said, "There are no great writers and very few great rewriters." (Tracy Henley, personal communication). These review assignments will let us practice and share what we know before creating a final product.

Writing Assignments – 100 points each

Writing assignments include summaries of a literature review and empirical articles, outlining a paper with APA citations, and producing a first APA-style draft of the final term paper. These assignments will serve as additional means for instructor and peer feedback in route to the creation of the final term paper.

APA Mastery Exam – 100 points

After we cover the APA Manual, students will take an at-home, online test on Blackboard to assess their understanding and application of its principles. More details will be provided prior to finals week.

Final Paper – 200 points

The writing assignments all contribute to a final paper. This paper will include no fewer than 10 peer-reviewed sources over a topic of the students' choosing (options to be discussed in detail in class). To be eligible to earn points for this final paper, students must adhere to instructions for writing assignments that contribute to this final work.

- To clarify or condense *portions* of students' original self-written materials
 - Prompt: Review the text below and concise the information. Be detailed and provide examples/explanations.
- To identify areas of improvement in students' original self-written materials
 - Prompt: Review the text below and identify areas of improvement. Be detailed and provide examples/explanations.

Students who choose to utilize generative AI tools for this purpose MUST:

- Declare the use of AI tools by identifying the program and purpose (i.e., allowed uses)
- Cite the tool in the reference section
- Include their original writing as an appendix to any assignment submission

Students are cautioned that all written assignments are checked for integrity using Turnitin, an AI program that detects plagiarism and language based generative AI content.

If generative AI usage is detected and not declared upon assignment submission, the student may be held accountable for violating the Academic Integrity Policy. The first step following any flagged material is a one-on-one conversation in a timely manner with the student to discuss the situation further and to determine what course of action is appropriate.

These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Students' Rights and Responsibilities: The following statement of students' rights and responsibilities is intended to reflect the philosophical base upon which University Student Rules are built. This philosophy acknowledges the existence of both rights and responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.
2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university student rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, [Student Code of Conduct](#), on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
5. A student has the responsibility to check their university email for any updates or official university notifications.

We expect that students will behave in a manner that is dignified, respectful, and courteous to all people, regardless of sex, ethnic/racial origin, religious background, or disability. Conduct that infringes on the rights of another individual will not be tolerated.

Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course syllabus or class discussion may be considered as academic misconduct. For more information on academic misconduct policies and procedures please review the [Student Code of Conduct](#) or visit the resources available in the [OSRR website](#)
