Course Description

This beginning-level Spanish is designed for true beginners (meaning you have never studied Spanish before) and for those students who grew up in an environment where Spanish was spoken frequently and are oftentimes capable of understanding spoken Spanish. Some students have had very little exposure to the language and enter the class to develop beginning-level skills. The course is inclusive of bilingual and second language learners of Spanish. This course employs a multifaceted approach that foments the development of the four skills of listening, speaking, reading, and writing. By the end of the semester, students will be able to comprehend the basics of, speaking, reading, and writing the language. In this class, students will also gain cultural competency and develop a critical understanding of the Spanish language linguistics and historical background.

Course Assignments And Policies

Course Expectations & Policies

In order for any course to be successful, it is important that there are clearly communicated expectations. Below I have outlined what I expect of you and what you can expect of me. These expectations should serve as a guide for how to succeed in this course.

Students are expected to take initiative in all aspects of this class. You are also expected to come prepared by completing the readings and assignments by their due dates. Doing so will facilitate your participation in group activities.

Course Modality: Face-to-Face (In-person)

1. Attendance and Participation: Students are expected to attend all scheduled class sessions and participate actively in class discussions and activities. Regular attendance is crucial for success in this course. Students will be dropped for exceeding two (2) unexcused absences. Students are required to keep track of their absences and for completing the assigned work. (You will be dropped from this course if you do not attend the first week of classes, show a lack of effort and initiative, or fail to complete the required work during the first week.)

After the 1st week, you will be dropped from this course if you stop attending classes, accessing Blackboard and do not complete the work. If 1 week has passed and you haven't completed any work, communicate with me immediately to provide reasons and documentation for your lack of initiative, otherwise, you will be dropped.

2. Time Management: Success in this face-to-face course requires effective time management. Students should plan their study time around scheduled class sessions, prepare for assignments and projects in advance, and adhere to the course schedule. Procrastination can negatively impact your performance and overall success in the course.

3. Self-Motivation and Discipline: Face-to-face learning still demands self-motivation and discipline. Students need to stay engaged, keep up with class materials, and be proactive in their studies. Although there is more direct supervision compared to online settings, students should remain focused and seek help when needed.

4. Communication: Effective communication is key in a face-to-face course. Students should actively engage in classroom group activities and utilize appropriate channels for questions or concerns, such as during office hours or through direct communication with the instructor. Timely and respectful communication contributes to a positive classroom environment.

5. Technological Proficiency: While face-to-face courses may not rely as heavily on technology, students are still expected to be proficient with any required tools or online platforms used for assignments or course materials. Basic computer skills and access to necessary technology are important.

6. Academic Integrity: Students must uphold principles of academic integrity by submitting their own work, properly citing sources, and avoiding plagiarism. Academic honesty is crucial, and any breaches may result in disciplinary actions.

7. Proactive Problem-Solving: Students should address any issues promptly by seeking assistance from the instructor or relevant support services. If technical problems arise that affect course participation or assignment submission, students should act quickly to resolve these issues.

8. Adaptability and Flexibility: Students should be prepared for any changes in the course schedule or assignments. Flexibility and the ability to adapt to modifications made by the instructor are important for successfully navigating the course.

BLACKBOARD/Email

There is a BLACKBOARD site for this course where readings will be posted, along with grades and other course information and assignments. It is your responsibility to check BLACKBOARD regularly for announcements and updates. You are also responsible for all information that is sent to your TEXAS A&M email account regarding the course, and you should check this information regularly. E-mail is the easiest and quickest way to get in touch with your instructors, and we will do our best to respond to your emails within 24 hours.

Attendance/Participation

Students are assigned points every week for attendance and participation. As class begins, attendance will be taken. If you arrive after attendance has been recorded, request to sign the roster after class—this is your responsibility. You will be marked absent if you arrive more than 10 minutes late or if you leave early.

Attendance You are expected to attend all scheduled classes. If for any unforeseen reason I must cancel class, you will be notified via announcement in Blackboard. Likewise, if you will be absent from class, have the courtesy to write to me in the timeliest manner possible. I will formally notify you if you accrue more than **two unexcused** absences, and we may remove you from the class after **third unexcused** absences. If you establish a habit of arriving late, I will formally notify you and request correction. **Your attendance and participation grade will be affected every time that you are absent.**

***If you reach 3 unexcused absences, you may be dropped from the class. ***
Proper documentation is needed for excused absences.

It is the student's own responsibility to make-up for any missed class-time in order to keep pace with the course.

Extenuating circumstances: If you experience a serious illness, hospitalization, death in the family, or another serious family emergency, you must notify me. In such cases, you will be allowed to make up assignments without a late penalty, and your absences will be excused.

• **EXCESSIVE ABSENCES:** If you accumulate above 2 unexcused absences, one (1) percentage point per unexcused absence will be deducted from your FINAL GRADE calculation. For example, if you were to miss a total of five (5) classes during the semester (2 unexcused plus another 3 unexcused), your final grade would be reduced by three (3) points.

• To have your absences excused, you must provide your instructor with official documentation of the reason for your missing class (e.g. extended hospitalization, medical emergency, religious functions, etc.) Documentation must be provided within two (2) class days after you return to class. You will have no opportunity to get any excess absences excused at the end of the semester.

Missed work can only be made up if you have valid documentation. Legitimate excused absences include the following: verifiable confining illness, serious verifiable family emergencies, subpoenas, jury duty, and military

service. It is your responsibility to notify the instructor of any excused absences as far in advance as possible. Work must be made up in a timely manner (e.g. before the next scheduled evaluation).

**** Your attendance and participation grade will be affected every time that you're absent. Notice that points will be lost from both the final grade and the attendance and participation grade.****

If a student is absent when a password for an exam is provided during the class session, and it is an unexcused absence, the student can contact the instructor to obtain access but will lose 30 points from the exam.

You will submit your assignments following the steps provided in the instructions. Students are expected to complete written assignments to the best of their ability in Spanish. Please contact your instructor if you have any concerns regarding this matter.

As with any extracurricular activity, the key function to succeed is practice, practice, practice. In this course, the student will be asked to work on assignments that will help build the student's comprehension of the Spanish language. Late assignments **will have a late penalty of 20% per day**. Make-up work is credited as **per school policy**. Keeping work caught up is vital to learning. The student will be held responsible for any short and long-term assignments, quizzes, exams, etc.

Unit Projects (Proyectos)

There will be a weekly community project due throughout the semester; your instructor will post the instructions and due dates on BLACKBOARD. These projects will involve participation in the community requiring the use of Spanish or an exploration of language opportunities in local or regional contexts. Through your projects you will improve your writing and speaking skills, you will write reflections or create videos. A link to a Google Doc will be provided. There you will find the Proyectos and their respective information and instructions.

Oral Presentation (Personal Mural Project 7)

For this project, you will audio-record and narrate a poem in Spanish about yourself based on the information that you provided on your Proyecto 7. **It must be your original poem**, you will add visuals that connect to the

poem and add soft background music (sound-only, no lyrics). You will introduce the poem and its theme (“Este poema es mi poema, se titula XYZ, y se trata de...XYZ”), you will then recite the poem (pay attention to tone, intonation, pauses, etc.). You will include 6-10 images (do not repeat images) that should appear as you narrate the poem. The poem must be at least 2 minutes long.

Digital Story-Telling Project

For this capstone project, you will audio-record two Spanish speaking persons (preferably your grandparents or someone in your grandparents’ generation) and create a digital story (in PowerPoint, GoogleSlide, Canva, iMovie or movie maker) containing their testimony regarding an important issue. Your instructor will provide detailed information, a list of topics to choose from, a due date and rubric regarding this project. You will include your own introduction and a final reflection as part of your digital story.

Interview with instructor

One informal oral interview will be conducted during the semester outside of class time. Students will be required to meet with the instructor one-on-one to converse briefly about their background and experience with Spanish. This meeting is a graded assignment and cannot be made up. Your instructor will give further details during the first week of class. It can be completed face-to-face or via Zoom.

Midterm and final Exams

There will be 2 exams and a final exam (3 total). The final exam will be cumulative. Make-up exams cannot be administered without a documented excuse and without authorization from the HL program leader. Students should contact the instructor before the date of the exam in the case of a time conflict. If an emergency happens the day of the exam, you need to contact the instructor or, if unavailable, the department immediately to make the necessary arrangements before the next class period. Make-up exams cannot be administered after two days of their initial scheduled date.

Homework (Three types of homework)

The late penalty is 20% per late day.

Homework type 1: **Actividades** will be assigned weekly and will be due on Sundays before 11:59 PM. You will complete these and screenshot your grade when a 100% is earned. A screenshot per finished activity must be submitted in Blackboard to earn full credit. You can paste your screenshots to an MS Word or PDF files or Google Doc then submit them in Blackboard. **Make sure the screenshot shows your completed work and grade earned.** Your instructor will post this type of homework along with instructions and due dates on BLACKBOARD.

Any other grammar activities assigned will supplement the grammar found in our course’s syllabus and textbook:

https://ohiostate.pressbooks.pub/idiomacomunidad/?fbclid=IwAR396MW3zwgwobp9KHVUJaFMiQSi1UgTpma_VoP3UabwXfsjfv9cA_sBWQ

It is expected that students review and complete the assigned **Actividades** (grammar and vocabulary exercises) on time. These are found under the Tareas of each week. These will cover the vocabulary and grammar of each week.

Homework type 2: **Audio activities**, you will be asked to record and provide information in Spanish and submit it on Blackboard. Your instructor will post this type of homework along with instructions and due dates on BLACKBOARD. Due on Fridays.

Homework type 3: **Lecturas** (Readings), you are expected to complete the assigned weekly readings. You will find the reading assignments in Blackboard under each week. Due on Sundays.

Additionally, you must review all chapter material and complete the Lecturas (readings), which contain the core information for each chapter. The Lecturas are located on Blackboard before the Tareas section, and are also available in our textbook.

Tutoring and Additional Support

Your instructor will upload your weekly study guides, readings and other supplemental materials via BLACKBOARD modules. To supplement the grammar of our textbook, your instructor will provide extra grammar notes in Blackboard. You are always encouraged to take notes and meet with your classmates outside of class to study. Please be aware that all A&M-San Antonio employees (other than those designated as confidential resources such as counselors and trained victim advocates) are required to report information about such discrimination and harassment to the university. This means that if you tell a faculty member about a situation of sexual harassment, sexual violence, or other related sex-based misconduct, the faculty member must share that information with the university's Title IX Coordinator (titleix@tamusa.edu, 210-784-2061, CAB 439K). If you wish to speak to a confidential employee who does not have this reporting requirement, you can contact the Student Counseling Center at (210) 784-1331 or visit them in Madla 120.

Pregnant/Parenting Students

Texas A&M-San Antonio does not require a pregnant or parenting student, solely because of that status or issues related to that status, to (1) take a leave of absence or withdraw from their degree or certificate program; (2) limit the student's studies; (3) participate in an alternative program; (4) change the student's major, degree, or certificate program; or (5) refrain from joining or cease participating in any course, activity, or program at the University. The university will provide reasonable accommodation for pregnant students as it would be provided to a student with a temporary medical condition that is related to the health and safety of the student and the student's unborn child. These could include maintaining a safe distance from substances, areas, and activities known to be hazardous to pregnant individuals and their unborn child; excused absences because of illness or medical appointments; modified due dates for assignments; rescheduled tests/exams; taking a leave of absence; and being provided access to instructional materials and video recordings of lectures for excused absences, if these would be provided to any other student with an excused absence. Pregnant/parenting students are encouraged to contact the Title IX Coordinator with any questions or concerns related to their status (titleix@tamusa.edu; 210-784- 2061; CAB 439K).

Texas A&M-San Antonio has also designated the Title IX Coordinator as the liaison officer for current or incoming students who are the parent or guardian of a child younger than 18 years of age. The Title IX Coordinator can provide students with information regarding support services and other resources. Young Jaguars can support parenting students with daycare if students meet this criteria: (1) must be enrolled in classes at Texas A&M-San Antonio in the current semester, (2) must be Pell eligible or a single parent, (3) child(ren) must be aged 3 to 12-years-old, and (4) child(ren) must be enrolled in Pre-K-3 through 6th grade. For more information, please contact Young Jaguars at youngjaguars@tamusa.edu or call (210) 784-2636.

Students' Rights and Responsibilities

The following statement of students' rights and responsibilities is intended to reflect the philosophical base upon which University Student Rules are built. This philosophy acknowledges the existence of both rights and

responsibilities, which is inherent to an individual not only as a student at Texas A&M University-San Antonio but also as a citizen of this country.

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition and peaceful assembly as set forth in the U.S. Constitution.
2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, and pregnancy/parenting or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of university students' rules shall be assured a fundamentally fair process.

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty, and administration.
2. A student has the responsibility to be fully acquainted with the published University Student Rules found in the Student Handbook, Student Code of Conduct, on our website, and University Catalog, and to comply with them, as well as with federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to recognize the University's obligation to provide a safe environment for learning.
5. A student has the responsibility to check their university email for any updates or official university notifications.

Students are expected to exhibit a high level of honesty and integrity in their pursuit of higher education. Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course syllabus or class discussion may be considered as academic misconduct. For more information on academic misconduct policies and procedures please review the [Student Code of Conduct](#) or visit the resources available in the [OSRR website](#).

Artificial Intelligence (AI)

Use of Generative AI Permitted Within Guidelines

Use of artificial intelligence (AI) tools, including ChatGPT, is permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (this includes in-text citations and/or use of quotations, and in your reference list). Using an AI tool to generate content without proper attribution qualifies as academic dishonesty and violates Texas A&M-San Antonio's standards of academic integrity.

Artificial Intelligence (AI) tools may be used in this class **only for research and guidance purposes** (for example, to help brainstorm ideas, find resources, or clarify concepts). However, you **may not copy and paste AI-generated text and submit it as your own work**. Submitting AI-produced content as your own will be treated as plagiarism and may be considered an academic honesty violation per the TAMUSA Student Code of Conduct and the Academic Integrity Disciplinary and Appeal Process Procedure.

The goal of this course is to help you develop your Spanish communication skills, and that purpose is defeated if AI is doing the work for you. Your own ideas, writing, and practice are far more valuable than a computer's output.

Faculty reserve the right to use AI detection software to identify instances of AI-generated writing in student submissions. Findings are binding and subject to student code of conduct, academic dishonesty, and plagiarism policies in the course.

Acceptable vs. Unacceptable AI Use

✓ Acceptable uses of AI:

- Asking AI to explain Spanish grammar rules or vocabulary.
- Using AI to brainstorm cultural topics to research.
- Asking for guidance on how to structure an outline or organize ideas.

✗ Unacceptable uses of AI:

- Copying and pasting AI-generated paragraphs into your assignments.
- Submitting AI-written essays, discussions, or blog posts as your own.
- Relying on AI to complete your work instead of practicing your own Spanish skills.
