Course Objectives: The objective of the course is to provide a basic understanding of the fundamental differences between Financial accounting and Managerial Accounting. It will focus on how Managerial Accounting serves the needs of managers employed inside the organization with planning, controlling and decision making. The emphasis is on decisions affecting the future, relevance, timeliness and segment performance of an organization.

Prerequisites: ACCT 2301 Principles of Financial Accounting.

Student Learning Outcomes:

After successful completion of this course, students will be able to:

1. Understand cost classifications used for assigning costs to cost objects;
2. Understand cost classifications used in making decisions;
3. Compute Overhead costs to jobs and understand the flow of costs in job-order costing;
4. Differentiate the product costs computed under activity-based costing and conventional costing methods;
5. Understand how the use of Cost-Volume-Profit (CVP) can help managers determine, very specifically, what the future will hold if variables are altered.
6. Understand the importance of budgeting and the various budgets prepared to arrive at a master budget.
7. Gain an understanding of financial statement comparison through the process of ratio analysis.
AACSB Assessment:
The College of Business is in the process of applying for AACSB accreditation. As part of that process, students will be assessed on program level outcomes based on course outcomes from various courses. The materials from this course may be used for assessing such program level outcomes, and hence students must follow the necessary rigor to ensure mastery and retention of the above course outcomes.

COVID-19: Due to the current pandemic environment, all university personnel (faculty, students and staff, etc) are required to adhere to mandated procedures and guidelines as communicated through university communications.

Required Materials:
- **Calculator:** A basic calculator that can add, subtract, multiply and divide.
- **Blackboard:** Connect to [http://tamusa.blackboard.com](http://tamusa.blackboard.com). You will have lecture notes, solutions to problems, multimedia materials and other supplementary materials in Blackboard. All class communications will be through Blackboard and students should monitor this several times a day.
- **Time Expectation for coursework:** You are expected to spend 4-8 hours per week for the course. Based on the background, some students may require more time. Time spent may be longer when assignment/exams are due.

Other Recommended / Reading Materials: Additional reading materials are available on the course website as recommended by the instructor.

Course Requirements every student must fulfill in order to succeed in course:

1. Students should check the Course Calendar, Announcements, and Messages (e-mail) systems in Blackboard on a regular basis.
2. Students should keep current with all course assignments, Blackboard discussions, quizzes, and examinations.
3. Students should ask questions and communicate with the instructor either in class, online, off-line or during office hours.
4. For all classwork, exams, quizzes etc., if a student is completing it off-campus, then they are responsible for availability of internet connectivity. Extensions will **not** be granted for lack of availability of internet connections.
5. Students should remember that online and hybrid courses assume greater responsibility and independent learning skills by the student for their own learning outcomes.
6. For online courses, students should keep current on class recordings, if not attending the live class (either in person or online).
7. For online asynchronous courses, there will be no online class sessions. All materials will be made available through Blackboard or through online links.
**Grading Policy:** The final course grade will be based on your performance on the Blackboard Discussion Forums, homework assignments, exams and attendance using the following weights:

- Attendance (tied to BB Discussions) 6%
- Blackboard Discussion Participation 32%
- Homework Assignments 32%
- Mid-term Exam 15%
- Final Exam (as per University Schedule) 15%
- Total 100%

The final letter grades will be assigned as follows: Above 90% ⇒ A; 80 – 89% ⇒ B; 70 – 79% ⇒ C; 60 – 69% ⇒ D; Below 60% ⇒ F.

**Examinations and Quizzes:** There will be a mandatory mid-term exam and a mandatory final exam (as per university schedule). Being absent / non-submission of an exam will result in a grade of zero for that exam and may result in a fail grade in the course. The exams will consist of conceptual multiple-choice questions and problem-solving questions. The exam materials will come from lecture notes, the text, and class discussions. Questions will emphasize understanding and applications of concepts and topics covered in class.

**Proctored Exams:** Examinations in this class may/will be administered using secure online testing services. Details regarding proctored test sign up and administration will be provided at least 2 weeks prior to the exam.

**Homework Assignments:** There will be homework assignments at the end of each chapter. Homework assignments and due dates will be posted through Blackboard.

**Make up and Late Assignment/exam/quiz policy:**
As a general rule, make-ups or late submissions will NOT be offered or accepted for any missed assignments or exams. Late submissions or make-ups may be accepted/administered only in extraordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed assignment or exam. Blackboard discussion topics may not be made up under any circumstances.

**Class conduct and civility code:** Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:

1. Attendance may be taken by an appropriate method by the instructor.
2. It is the students’ responsibility to obtain and be able to use the required materials and software for this class.
3. Student must retain copies of all assignments and graded work for verification purposes and provide it to the instructor, if necessary. Keep own copies of all computer files and e-mails till final grade is received.
4. Talking while the instructor is lecturing is extremely disruptive and discourteous to the instructor and other students.
5. Using computers or phones (except for a valid urgent need) during class for a purpose not related to class is disruptive. All cell phones and gadgets should be turned OFF.

6. For any questions about the exams and assignments, a student should contact the instructor, well in advance of the day they are due, so the instructor may have enough time to provide feedback.

7. All communications will be via e-mail communications to the Texas A&M University e-mail account, and students are expected to use their school provided email account. The instructor will reply to a student e-mail messages and voice messages within 2 business days (Monday-Friday).

8. All assignment submissions must be uploaded as instructed by the due date and time. Submission window may close or marked late, even if late by one second.

Anyone violating these policies may be subject to disciplinary actions.

**Class attendance and Participation:** A vital part of every student's education is regular review of class materials posted by the instructor for asynchronous classes. Any absences tend to lower the quality of a student's work, and frequent or persistent absences may result in a failing grade. Students are responsible for the materials covered in class. The course covers a lot of material and most students find at least some parts of it difficult. Class participation is highly encouraged as it makes the class more interesting and enhances the learning experience. Students are strongly encouraged to ask questions, participate in class discussions and problem solving, and visit/contact the instructor during office hours in case of questions or concerns. Good attendance and participation will be rewarded when final grades are assigned.

The course is intensive and challenging and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important and may vary considerably based on student background. However, a **minimum** of two hours of work outside the class is expected for every one-hour of class period per week. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures.

**Blackboard Participation:** Because this course is online, your instruction will be provided on-line through Blackboard. It is vital to your successful completion of this course that you regularly participate through this medium. There will be weekly discussion boards opened with relevant topics related to the topics we are reviewing in the face-to-face class and textbook chapters. You will be responsible for posting your thoughts/opinions on the assigned topic as well as interacting with your classmates. Blackboard is meant to be a **discussion** board which requires active participation with your instructor and your classmates. It is expected that you **interact with at least two classmates** via Blackboard for each discussion topic in a meaningful way. Responses such as “I agree” are not meaningful and will not count. Your responses to your classmate’s posts should add value, insight and/or your perspective. It is important to keep all posts and responses respectful. Opinions are just that, your opinion. If you have facts you would like to add, feel free to but cite your sources. While there is no specific date within the week that you must post to Blackboard, do not wait until the due date of the assignment as it will be difficult for others to interact with you on your posts.
