Catalog Course Description: The design of this course is centered on developing an understanding of the basic financial statement of a firm. In turn we will use this knowledge to apply basic tools used for analyzing a firm’s performance. Thus, the course will focus on using various ratios to show how well a corporation is progressing in terms of reaching financial objectives. The course will also provide students with the ability to use forecasts to develop an estimate of firm valuation.

Course Objectives: The primary objective of this course is to provide students with the necessary tools to understand the profitability of a firm, to evaluate the risks to a firm, and use information to forecast future profitability and risk and ultimately the value of a firm. The course will focus on the use of a variety of financial ratios and accounting statements to develop an understanding of a firm’s value and risk characteristics.

Prerequisites: None

Student Learning Outcomes:
After successful completion of this course, students will be able to:
1) Demonstrate the ability to use various financial ratios and accounting statements to evaluate a firm.
2) Create a viable proforma income statement, balance sheet and statement of cash flow for a firm.
3) Demonstrate an understanding of the framework used to link the economic characteristics and strategies of a firm, its financial statements, and assess a firm’s current and forecasted profitability and risks.
4) Demonstrate an understanding of how to use financial statement information to forecast the future business activities of the firm.
5) Develop the ability to use and connect the various financial ratios and information for a firm in order to construct a realistic value for the overall firm.

AACSB Assessment:
The College of Business is in the process of applying for AACSB accreditation. As part of that process, students will be assessed on program level outcomes based on course outcomes from various courses. The materials from this course may be used for assessing such program level outcomes, and hence students must follow the necessary rigor to ensure mastery and retention of the above course outcomes.

**COVID-19:** Due to the current pandemic environment, all university personnel (faculty, students and staff, etc) are required to adhere to mandated procedures and guidelines as communicated through university communications.

**Required Materials:**
- **Text:** Gibson, C. H. (2001). *Financial reporting and analysis: Using financial accounting information.* South-Western Pub. The ebook is available through blackboard. Supplemental reading will be suggested from the financial literature that students may find helpful in gaining a more complete understanding of the course material.
- **Calculator:** A financial calculator with the following function keys (N, I, PV, PMT, FV, IRR, and CF) is required for the course. All of the calculations in the course CAN be done with a calculator that has at least the exponential function ($y^x$). However most of the calculations will be much easier with a financial calculator. The HP10BII and the TI BAII Plus are the recommended calculators and will be used for all examples shown in class.
- **Blackboard:** Connect to [http://tamusa.blackboard.com](http://tamusa.blackboard.com). User ID is the K Number (K00001234). Password is the Date of Birth (MMDDYY). You will have copies of power point slides and other supplementary materials available in the content section of Blackboard.

**Other Recommended / Reading Materials:** Students should keep current with various business news through such publications as the Wall Street Journal, The Economist, and various news programs. The latter would include Fox Business News, Bloomberg TV, and the nightly business report on NPR.

**Course Requirements every student must fulfill in order to succeed in course:**
Demonstrate an understanding of the framework used to link the economic characteristics and strategies of a firm, its financial statements, and assess a firm’s current and forecasted profitability and risks.

**Grading Policy:**
The final course grade will be based on your performance on the quizzes, exams, assignments and class participation using the following weights:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quizzes</td>
<td>25%</td>
</tr>
<tr>
<td>Mid-term Exams</td>
<td>25% each</td>
</tr>
<tr>
<td>Final Exam (as per University Schedule)</td>
<td>25%</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

The final letter grades will be assigned as follows: Above 90% ⇒ A; 80 – 89% ⇒ B; 70 – 79% ⇒ C; 60 – 69% ⇒ D; Below 60% ⇒ F.

**Examinations and Quizzes:** There will be two mandatory mid-term exams and a mandatory final exam (as per class schedule) in Blackboard and WebEx. Being absent for an exam will result in a grade of zero for that exam and may result in a fail grade in the course. The exams will consist of conceptual multiple-choice questions. The exam materials will come from lecture notes, the text, and class
discussions. Questions will emphasize understanding and applications of concepts and topics covered in class.

**Proctored Exams:** In order to ensure course integrity, students enrolled in this course may use a Remote test-Proctoring software for the administration of exams, if allowed and is set up by the instructor.

The College of Business has partnered with ProctorU for the Remote test-Proctoring service. It is completely free for students to use; there is no additional fee to students for using this service. Students are required to make their own appointment to take exams within the timeframe established by your professor. If you make an appointment for an exam and fail to appear, subsequent testing attempts for that exam will incur a fee to the student of about $30 (prices are dependent on the length of the exam). Information about required computer equipment needed for this service can be found on the ProctorU website. At a minimum, students need a computer, webcam, a microphone, and an internet connection with at least 3 MPS upload and download speed. Information and FAQs about how to register and take your exam with ProctorU is available on their website at ProctorU.com. You can also test your computer systems readiness that site.

**Quizzes:** There will be a quiz for each chapter in Blackboard during the course. Individual quizzes and due dates will be posted through Blackboard.

**Make up and Late Assignment/exam/quiz policy:**
As a general rule, make-ups or late submissions will NOT be offered or accepted for any missed assignments/exams/quizzes. Late submissions or make-ups may be accepted/administered only in extraordinary circumstances such as an excused official university activity, a severe illness, or a dire emergency. However, you must provide comprehensive documentation either before or within a few days of the missed assignment/quiz/exam.

**Class conduct and civility code:** Everyone in class is expected to follow all rules in the student handbook, as well as common courtesy during classroom lectures and discussions in class and online, including the following:
1. Students should check the Course Calendar, Announcements, and Messages (e-mail) systems in Blackboard on a regular basis.
2. Students should keep current with all course assignments, quizzes, and examinations.
3. If the course uses remote proctoring for exams, students must schedule their exam early in the semester.
4. Students should ask questions and communicate with the instructor either in class, online, off-line or during office hours.
5. For all classwork, exams, quizzes etc., if a student is completing it off-campus, then they are responsible for availability of internet connectivity. Extensions will not be granted for lack of availability of internet connections.
6. Students should remember that online and hybrid courses assume greater responsibility and independent learning skills by the student for their own learning outcomes.
7. For online courses, students should keep current on class recordings, if not attending the live class (either in person or online).
8. For online asynchronous courses, there will be no online class sessions. All materials will be made available through Blackboard or through online links.
9. For online synchronous courses, there will be online class sessions as indicated. Students are expected to attend the online session at the given time. If a student is unable to attend a session, instructor will make the recording of the session available for the student to view. All materials will be made available through Blackboard or through online links.

Anyone violating these policies may be subject to disciplinary actions.

**Class attendance and Participation:** A vital part of every student's education is regular attendance of class meetings. Any absences tend to lower the quality of a student's work, and frequent or persistent absences may result in a failing grade. Students are responsible for the materials covered in class. The course covers a lot of material and most students find at least some parts of it difficult. Class participation is highly encouraged as it makes the class more interesting and enhances the learning experience. Students are strongly encouraged to ask questions, participate in class discussions and problem solving, and visit/contact the instructor during office hours in case of questions or concerns. Good attendance and participation will be rewarded when final grades are assigned.

The course is intensive and challenging and you are expected to master the materials presented in class. The structure of the class makes your individual study and preparation outside of class extremely important, and may vary considerably based on student background. However, a minimum of two hours of work outside the class is expected for every one hour of class period per week. Reading the assigned chapter(s) and having some familiarity with them before class will be very useful for understanding lectures.

2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, sexual orientation, or veteran status in accordance with applicable federal and state laws.
3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
4. Each student subject to disciplinary action arising from violations of University Student Rules shall be assured a fundamentally fair process.

**Students’ Responsibilities**

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty and University officials.
2. A student has the responsibility to be fully acquainted with the published University Student Rules and to comply with them, as well as federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to maintain a level of behavior that is consistent in supporting the learning environment of the institution and to recognize the University’s obligation to provide an environment for learning.

**Violations of Academic Conduct (Section 14.5 Student Handbook):** As a member in an academic community, students at Texas A&M University-San Antonio are expected to exhibit a high level of honesty and integrity in their pursuit of higher education, be mature, be self-directed and be able to manage their own affairs. For more information please visit the Office of Student Rights & Responsibilities website [http://bit.ly/TAMUSAStudentRR](http://bit.ly/TAMUSAStudentRR).

Students engaging in an act that violates the standards of academic integrity will find themselves facing academic and/or disciplinary sanctions. Academic misconduct is any act, or attempt, which gives an unfair advantage to the student. Additionally, any behavior specifically prohibited by a faculty member in the course syllabus or class discussion may be considered as academic misconduct. Academic misconduct includes, but is not limited to, cheating, plagiarism, multiple submissions, collusion, lying and bribery. For more information, refer to the Student Code of Conduct, Article III: Conduct Rules and Regulations. Texas A&M University-San Antonio faculty has the discretion to impose grade penalties as deemed necessary.

Faculty members are required to report such serious breaches of academic honesty to their chair, their dean and the Office of Student Rights and Responsibilities. In cases of academic misconduct, students may be subject not only to grade sanctions in courses but to disciplinary action. Grade sanctions may be imposed only by faculty members, but suspension or expulsion may be imposed only by the Vice President for Student Affairs. If a student wishes to appeal the decision of suspension or expulsion due to violations of academic misconduct, they must initiate their appeal as outlined within the Student Code of Conduct. Extenuating circumstances may cause the University to deviate from the defined time frames.
All student term papers and other written assignments are subject to analysis by anti-plagiarism software. Posting of any class work given to student, or solutions, or discussion, on publicly accessible forums or on social media is not permissible.

Considering the potential consequences of academic misconduct, it is obviously in students’ best interests to avoid even the appearance of such behavior. If a student is unclear whether a specific act might constitute academic misconduct, please she/he should contact the instructor for an assessment of the situation.
